Metal treatment
and Drop Forging (Established 1935)

Index to volume 26

January to December 1959

ARTICLES

A

Aluminium structures for atomic energy 115
Aluminium works, new plant at 425
Application of electron microscopy
145, 181, 225, 264, 305, 367, 400, 461
Automatic profile milling 154
Automation in forging 231

B

Bend test for hardened tool steels 473
Beryllium 237
Beryllium copper 317, 374
Bright annealing 7

C

Carbide impregnation 167
Cathode-ray oscilloscope 53
Characteristics of spark erosion circuits 405
Chipless forming, a survey of 347
Cobalt 161
Coil spring research 79
Computer policy at Stewarts & Lloyds 63
Computers in design, the use of 117
Continuous casting 33
Controlled-atmosphere furnace 252
Co-operative training in Sheffield forges 198
Cyclic annealing of forgings 209

E

Effect of cold working on the block structure of aluminium 400
Electron metallography 95
Electron microscope, use of
145, 181, 225, 264, 305, 367, 400, 461
Embrittlement of solid metals in a liquid metal .. 333

F

Flame-hardening 169
Flat-rolled steel 284
Forgeability of steels 65, 107
Forging industry, the 137, 191
Forging press, 4,000-ton 27
Forging reactor parts 423
Forging techniques 441
Fulmer Research Institute 381

G

G.E.C. activities in 1958 121
Germanium 103

H

Hardness testing 28, 60
High-conductivity copper castings 261
High-speed stamping press 94
High-temperature bearings steel 322
Hot working of alloy steels 255, 323, 361

I

Indentation hardness 118
Indian iron and steel symposium 178
Initial stages of fatigue in carbon steels 305
Institute of Metals: Spring meeting 130
Iron ore as a by-product of nickel refining 88

J

Japan's forging industry 304

K

Krupp industrial empire, the 164

L

Lithium 199

M

Metal degreasing 291
Metallography 203
Metallurgy courses 360
Metals research at National Physical Laboratory .. 328
Microscopes 155
Molten metals, vacuum treatment of 421
Morphology of a brittle structural component in resistance-welded mild steel 225

N

New techniques in forging 441
Non-ferrous metals research 246

P

Phase analysis of resistance-welded joints in carbon steels 181
Phase diagrams 21
Phase formation in the structure of brittle transformer sheet 461
Plant generation of acetylene gas 211
Plastic deformation on the rate of diffusion, effect of 422
Platinum thermocouples, the care of 289
Precipitation-hardening stainless steel 91
Precipitation of carbides and nitrides in a 12%-Cr low-carbon steel 264
Problems of brittle fracture 15
Production of niobium and tantalum powders .. 242
Production of slugs and forging blanks 331
Progress in welding research 34
Pyrophoricism in metals 31

Q

Quick-heat furnace 170

R

Radiation monitoring service 212
Radiation pyrometer 208
Ring mill at Walter Somers 384
Rolling nuclear fuel elements 165

S

Shaker-hearth furnace, the 437
Silicon production in Britain 122
Société Française de Métallurgie autumn meeting, 1959 448
Steel castings research 36
Structure of pearlite formed during the continuous breakdown of austenite 367

T

Tantalum 273
Technical and human aspects of research and development 3
Television in industry 243
Temper-embrittlement 275
Titanium pressing lubricants 168
Transparent ceramic 424
Treatment of Nimonic alloys 45
Tungsten and titanium in steel 52

V

Vacuum furnaces aid heat treatment 72
Vacuum heat treating 391
Vacuum melting 205
Vanadium 77
Vibration-controlled hammer 73

X

X-ray measurement of textural stresses 159

Y

Yttrium 288

Z

Zirconium 314

BOOKS

Aluminium rainwater goods 342
Bending aluminium 80
British Iron and Steel Federation, annual report, 1958 342
Calibration of liquid-in-glass thermometers .. 220
Cast tools 220
Chemistry and metallurgy of titanium production .. 80
Chinese scientific literature 222
Cores and core making 132
Degreasing plant 80
Die Fertigungsbelange des Gesenkschmiedens und ihre wissenschaftliche Weiterentwicklung .. 342
Effects of radiation on materials 41
Effects of surface on the behaviour of metals .. 80
International Tin Research Council, annual report, 1958 222
Materials property index 80
Metallurgy of vanadium 41
Nobel metal thermocouples 80
Non-destructive testing 220
Notes for authors 342
Press bending 342
Research for industry, 1958 342
Russian translations 81, 222
Structure of metals: a modern conception 342
Torsion bars 80
Trouble-free hydraulics 41
Using steel wisely 222
Vacuum metallurgy 132
Welding aluminium 41
Wiggin electrical resistance materials, some properties of 132

EXHIBITIONS

British, in New York 428
British Foundry 215
British Trade Fair, Lisbon 215
Corrosion 214
Engineering, Marine, Welding and Nuclear Energy 213
Factory Equipment 214
Foundry 296
Hatfield Technical College 428
Mechanical Engineering Research Laboratory .. 213
Nickel and Platinum Metals 428
Scottish Industries, 1959 124

FILMS

'Counting the Cost' 190
'Cutanit Cemented Carbides' 373
' Drop Forgers in Steel ' 190
' Money and Steel ' 190
Sheffield made 457
Stelvetite 294

LEADERS

Between two stools 44
Dawning light? 223
Drop forging and research 389
Expansion 136
Flat-footed 135
Getting it straight 1
Hard work ahead 43
It can be done so well 180
Management training for steel industry 254
National asset?, a 253
One point of view 179
Rockets and research 303
Spark machining 345
Supervisors and foremen 224
Trade cycles and research associations 89
Vive la France! 223

N.A.D.F.S.

Annual banquet, 1959 458
Prize competition 116
Spring lectures, 1958 .. .. .. 28, 102
Tenth technical convention 458

NEW PLANT

Aerosol pack for molybdenized lubricants 128
Arc welding electrodes 344
Automatic pre-treatment plant 302
Barrier cream, improved 86
Brinell hardness-testing machine 216, 388
Cadmium 344
Carbide tool for steel 86
Chromel-Alumel thermocouples 174
Cold-bend testing machine 300
Detecting water in oil quench tanks 434
Dry film lubrication 344
Electrically-heated gas-carburizing furnace .. 85
Electric resistance melting non-ferrous metals .. 432
Electric shaker-hearth furnace 176
Elevator trucks, new range 128
Exothermic gas generator, small 432
Eye protection 127
Fine swarf cleaning 288
Furnace for small parts 387
Gas cylinder trolley 174
Gas sampling 42
Gas torch for high-temperature welding 302
Heat treatment of transformer laminations 434
High-density sintered materials 176
High-speed handling of hot samples 432
High-temperature ammonia dissociators 434
High-temperature vacuum furnace 42
High-vacuum pumps 174
Humidity cabinet equipped for refrigeration .. 300
Investment base for precision casting 176
Lapping attachment for milling cutters 300
Large-capacity high-vacuum pumps 128
Magnet alloy 128
Medium-capacity electric ovens 85
Metrovick resistance rivet heater 487
New soluble oil mixer 127
Nickel stripper 216
Pre-heating and stress-relieving of welds 42
Radiant flash annealing furnace 302
Radiation payment for liquid steel 216
Single-chamber metal washing machine 85
Sintered tool shank materials 388
Slip casting 344
Smoke eliminator 174
Stepless control of power and temperature .. 478
Surface grinding machines 344
Taper-jointed electrodes 127
Thermostat for ventilator problem 176
Tool steel 302
Tube-packs for industrial greases 174
